

RANSOMWARE RESOURCES:

Here are some great links for websites when dealing with preventing, as well as dealing with ransomware attacks. Please spend some time becoming familiar with them, and bookmarking them for future reference.

- <https://www.nomoreransom.org/>
 - A website that hosts a number of ransomware decryption keys
- <https://id-ransomware.malwarehunterteam.com/>
 - Here is a wonderful service that currently detects 750 different ransomwares
- <https://www.google.com/drive/>
 - Google Drive offers 15GB of FREE online storage space to start
- <https://support.apple.com/en-us/HT204247>
 - Apple iCloud has affordable cloud storage starting from 50GB for \$0.99/month
- <https://www.dropbox.com/>
 - DropBox offers from 2-18GB free online storage to start, and supports Apple and Windows systems
- <https://www.crashplan.com/>
 - A brilliant cloud solution that allows you to automatically back up your personal/business data, even if it sits on an external drive, straight to the cloud (something iCloud doesn't offer)
