

APPLE RESOURCES:

Here are some great links for websites and settings to configure, to ensure your Apple device is more hardened and secure. Please spend some time becoming familiar with them, and bookmarking them for future reference.

- <https://home.sophos.com/en-us/download-mac-antivirus.aspx>
 - Sophos Free Antivirus for the Apple Mac is a superior AV solution. Well worth installing
- <https://www.comodo.com/home/internet-security/antivirusfor-mac.php>
 - Comodo also offers a good free Antivirus program for the Apple Mac
- <https://shop.cylance.com/us>
 - Cylance's artificial intelligence-driven Antivirus solution is world class, and highly recommended
- <https://objective-see.com/products.html>
 - A fabulous website with many valuable Apple utilities such as Lulu, BlockBlock and Knock Knock
- <https://www.obdev.at/products/littlesnitch/index.html>
 - A superior firewall for the Apple Mac (they have a free and paid version)
- <https://support.apple.com/en-us/HT204837>
 - How to turn ON Apple's FileVault disk encryption

- <https://www.malwarebytes.com/mac/>
 - MalwareBytes is great for catching adware, spyware and other such bad programs that antivirus programs might overlook
